

BOSTON SECURITY
services

COMPANY PROFILE

DELIVERING THE BEST TECHNOLOGIES

A man in a light blue shirt and shorts is smiling and helping a young boy on a red bicycle. The boy is wearing a blue helmet and a blue shirt. They are on a paved path near a beach with waves in the background.

Advanced Solution for Better Life

Advanced solution for better life, only concerns the security of human environment for better life

ABOUT US

Boston Security Services was established in the year 2006. We are totally focused on entire “ELV” & “ICT” systems peculiarly in CCTV systems for high rise building industry in Qatar. Our aim is to provide the clients with most innovative, reliable and latest technologies.

We are dedicated to build positive relationships with our customers by understanding our client’s business needs and provide them with the most professional and high end services that fulfill them, whether it’s residential, retail, commercial, industrial or governmental without compromising Quality and Standard.

“Boston Security Services” is proud to have a very qualified team of engineers, technicians and site experts to service the need of our valuable customers whether it is in design consultancy, supervision, installation, commissioning or training.

“Boston Security Services” understands that Information Technology and Networking are critical to today's security infrastructure and we ensure that our solutions incorporate today's latest technologies. Beyond its technology, Boston Security Services owns the strongest team of project managers, technicians, and support personnel available in the industry. Boston Security Services is a locally owned and operated company and promotes an innovative and entrepreneurial culture within the organization.

HISTORY

MISSION

**“We deliver the Best Technologies in ELV Business as
We Understand the Technologies Best ”**

Mission

- Provide integrated security solution for safer human environment.

Strategy

- Management by detail.
- Small things make a big difference.

A man in a white dress shirt and a patterned tie is holding a baby in a white onesie. He is smiling and looking down at the baby while holding a mobile phone to his ear with his other hand. The background is a blurred office or home setting with large windows.

Whether your home is large or small,
we offer a wide range of comprehensive
security solutions to suit your needs,
application and budget.

HOME SECURITY

Our solution

Home monitoring security cameras provide ultimate coverage, allowing you to monitor and protect your home, family, and property.

Our recent & current platform of TV system is IP based. In that, we are providing a wide variety of services that can be offered using the IP protocol, providing global solutions to organizations through technology with the flexibility of designing all elements as per client wish for interactive TV and IPTV.

We master the created technology to lead the convergence of digital television, Internet, and access to on demand content interactive services through research and development of new applications, products and services and audio-visual multimedia IP technology.

AUDIO/VIDEO INTERCOM SYSTEM

Our Audio/Video Intercom System highly satisfies all types of requirements, whether it's from small villa to a wide infrastructure building.

Boston has the most suitable system for small to large-sized buildings and residential areas with floor distribution. Villas, offices, buildings and towers will have the right solution from us.

We offer a wide range of solutions and digital services in order to satisfy all requirements within the Telecommunication industry. We constitute the latest generation services for hotels, hospitals, residential buildings and singular buildings, and offers you the following services in any establishment, without changing any communications infrastructure and with any type of TV.

WELCOME

SPA

Global Network CCTV Leading Company

VISUAL SURVEILLANCE SYSTEMS - CCTV

Whether you are looking to strictly monitor access to your buildings, offices or to Identify and manage users on the network or to integrate Video Surveillance, Boston Security Services will help you to achieve all of your objectives.

Our intelligent Visual Management Systems (Digital CCTV) are the basic backbone of your building security. These are widely used for monitoring of strategic location within and around a building or within a large campus.

At Transit we deal with an enormous number of Engineered Surveillance Systems involving Digital Video Recorder, CCTV cameras, monitors, multiplexers, video matrix switchers and other variety of peripherals including remote controlled and auto tracking pan, tilt and zoom cameras.

Boston Security Services also fulfills the thirst of advanced security system through IP based CCTV system. As per latest MOI guidelines, we highly satisfy our great customer needs as per MOI guidelines.

PUBLIC ADDRESS

Public Address System is a pre-requisite for effective communication within a facility. Boston offers the latest of technologies available today in background music systems.

Our Audio Management Systems are individually configured to match the appropriate facility.

We carry extensive on-site surveys to understand your needs. Depending on these needs we offer you the appropriate solution.

Whenever you need to communicate, think of us.

PBX SYSTEM

A PBX (private branch exchange) is a telephone system within an enterprise that switches calls between enterprise users on local lines while allowing all users to share a certain number of external phone lines. The main purpose of a PBX is to save the cost of requiring a line for each user to the telephone company's central office.

DOOR PHONE SYSTEM

Door phone systems perform a simple but important function. Door phones allow one to communicate safely with visitors without any need for physical interaction with them. By installing a door phone system you will increase not only your home security, but also the convenience of managing daily household chores.

IP TELEPHONY

As the IP PBX market has evolved in the past ten years, it has grown to include more 'virtual', 'internet-based', and 'in the cloud' solutions. IP PBX support infrastructure has become increasingly reliable and hosted options have become a real option. Today, more than ever before, end users are able to choose the exact features and services they want at an afforded price.

OUR REFERENCES

Boston is proud of our impressive local and global customer profile. Our customer commitment has grown based upon a realized value obtained from the sale of Boston's products and services in the State of Qatar.
